

Challenge Chapter Meeting

February 12, 2008

Present: Ed Coe, Dave Parker, Robert Sparks, Jon Bird, Paul Adesko, John Marsh, Dan Cronin, Bob Truman, Bill Harber, Nancy Spence, and Ed Proctor.

Program: Ed Proctor presented a wonderful program on Fishing in Patagonia. It covered several trips he's made to many rivers in that area both in Chile and Argentina.

Treasurer: Dave Parker reported that the current balance in our checking account is \$16,212. He handed out the quarterly financial report.

Secretary: Nancy Spence said she has compiled a roster of active members and it will be available to members who attend the meetings or by request. Nancy just sent out 180 post cards with the dates and programs for all upcoming meetings through May. Ed Coe feels we should get e-mails to all our members or call them.

Education: The beginning fly tying class is done and all graduated. John Marsh and Don Silsbe went to teacher, Dave Forman's, classroom. He's asked for our help in his class project to watch fish grow from eggs. John and Don sat in on his science club meeting.

Conservation: Greg Baughman reported that our May outing work project will be planting the claybanks on the North Branch of the AuSable. The June project is yet to be determined.

Fly fishing Expo: Please contact Jeff Schodowski to sign up to work in our booth. We need lots of volunteers. jeff@jeffschodowski.com or (248)212-0707

Respectfully submitted,

Nancy Spence, Secretary
